

Wollongong Motorcycle Club Mt Kembla

Wollongong Motorcycle Club and Mylaps Sports timing have come together to provide their member with a first class timing system. From the 1st of August 2010 WMCC will have installed a Mylaps MX system. This means any rider with a Transponder on their bike will with have every single lap recorded.

The Mylaps MX system times every lap ridden even on practice days. Every time you're Transponders passes the finish line the time is sent to your Mylaps.com account and you can view your times at home, on a laptop with internet or even on your iphone or smartphone at the track.

You can use your MYLAPS MX Transponder at any state or national MX event where Transponders are used, this saves on rental fees. MYLAPS & Williams Event Management have just signed a partnership for the next 5 years. Every rider at the MX National must own a MYLAPS MX Transponder.

TRANSPONDER OPTIONS –

There are two types of Transponders and both have to same functions as the Mylaps MX Personal Transponder. The only differences the payments options for the Transponder.

MYLAPS PERSONAL MX TRANSPONDER –

The cost of this Transponder is \$408.80 Inc GST. The Transponder comes with a 3 year warranty.

MYLAPS FLEX MX TRANSPONDER –

The FLEX Transponder is a pay per year Transponder. The first year cost which includes the Transponder is \$154.00 Inc GST. The following year is \$88.00 Inc GST and the 3rd year is \$88.00 Inc GST. After that if you still wish to race it is \$88.00 Inc GST each year. The FLEX has ongoing warranty as long as the yearly fee has been paid.

With the club moving to Transponder timing this means once most riders have a Transponder, club days can move to Transponder timing and have instant results and point scores for all races. To order a Transponder please fill in the order form and return to Mark Ryan
